Called meeting Friday, Jan. 10th, 7:30 p. m. First degree.

E. E. RYAN'S DANCING ACADEMY at the J. B. hall. Social dance every Wednesday and Saturday evenings.

Stage was passed today at noon when the gage at the point bridge registered 21.9 feet, a fall of almost 10 feet in 24 hours.

Wheeling, W. Va., suffered severely from the high water, no less than \$600 persons having been driven from their homes. Railroad and street railway traffic was interrupted and will not be resumed until tomorrow at the carllest, it is estimated.

COLD WEATHER IS

River Is Frozen Over, Hirds Frozen and Windmills Frozen-School Re-sumes at Anthony. Anthony, N. M., Jan. 10.-The cold Anthony, N. M., Jan 10.—The cold weather here remains severe, the mountains and valley covered with snow. Not a windmill in town escaped frozen pipes and about the only water supply for awhile was Mrs. Story's hand pump. Stock is suffering greatly, as well as domestic animals.

Royal Jackman says birds in great numbers gathered around his buildings seeking protection. In one horse shed he found three frozen turtle doves, another one in the side of a hay stack and one under a mesquite bush.

The river has been frozen solid and people afoot are crossing on the ice. A

one under a mesquite bush.

The river has been frozen solid and people afoot are crossing on the ice. A number of attempts have been made to cross teams, but the experience being entirely new to the horses of the valley, they slip and fall. The only similar circumstances remembered here was in 1887 and 1886. The latter year. The burcio Duran duclares, the river was frozen three weeks, many cattle were drowned in trying to drink from the deeper holes, and that the tornillo of the valley, semi-tropleal trees, were so frozen that all died. Afterwards there came up a new growth from the roots, however.

The schools have opened again, after a week's vacation on account of a smallpox scare. Mr. McFarland, recently from Arizona, is being strictly quarantined and taken care of by immunes, and no other cases have developed from his case. Dr. McBride, from El Paso county, health officers, have been here and caused thorough vaccination among the people on both sides of the state line.

C. A. Thompson, manager of the South New Mexico Farmers' association.

the state line.

C. A. Thompson, manager of the South New Mexico Farmers' association, from a conversation with B. H. Burrell, the government expert, gathered the opinion that in view of the nearby deposits of gravel and caliche, the surfacing of the present Camino Real between Anthony and Las Cruces with an oil mixture would prove a better road than the present macadam between El Paso and Anthony, more easily mended and not so hard on horses's feet. It would not cost over \$2000 per mile.

Mr. and Mrs. Frank Mayhill, from Mayhill, Otero county, are here visiting relatives.

relatives.

B. S. Cusey, from Chicago, has taken charge of the Dairy farm alfalfa ranch of 300 acres, G. G. Halbrook and family have moved to their tract of land near the

Smith ranch.

Mrs. W. F. Krauhl. nee Dorothy
Howell, a Texas state university graduate, is visiting her parents. Mr.
Krauhl is also a graduate of the same
college, where they first met. Since
their marriage, in El Paso, three years
ago, Mr. Krauhl has been an iron construction engineer in Chicago.

John Miller, an alfalfa seed man from
Barkiow Tex., is making a tour of in-Smith ranch. Mrs. W. F. Krauhl, nee Dorothy John Miller, an alfalfa seed man from Barstow. Tex. is making a tour of inspection of the valey. Mr. Miller sounds a word of warning to the big land owner holding his undeveloped acres. W. H. Williams, a farm journal writer, on his way from Grand Junction to Pecos. Tex., is another visitor expressing the same opinion, after viewing the valley in perspective from the point of past experience of other valleys under similar conditions.

Ary 10.

New York, N. Y., Jan. 10.—While there was little in the way of general news to justify the change in market sentiment, prices today took a downward course, presumably in sympathy with the weakness of the copper group Bear operators found little general support and put out moderate lines of important stecks, with special pressure against some of the transcontinental issues, barticularly Union Pacific and Canadian Pacific.

A sharp fall in the price of copper metal abroad was followed by rumors here that selling agencies were disposing of copper at figures well under the long established official rate of 17% cents.
